

What's New

In the enhanced VacationSelect product

On December 17, the current VacationSelect product will be replaced with a NEW VacationSelect. It still has the same great functionality that you have been accustomed to, but it has a new and improved look and feel. You will also find new easy to use tools to help you grow your business.

When agents were asked what they needed to compete, they wanted tools that would save time, increase productivity, close sales faster, improve up sell rates, and increase financial performance. Travelport, and our partner VAX Vacation Access, have worked together to dramatically improve your booking experience to help drive practical results for you and your agency.

To access the New VacationSelect product, you will need to Log into Go! and access the Go! Script Index. Please follow these easy steps.

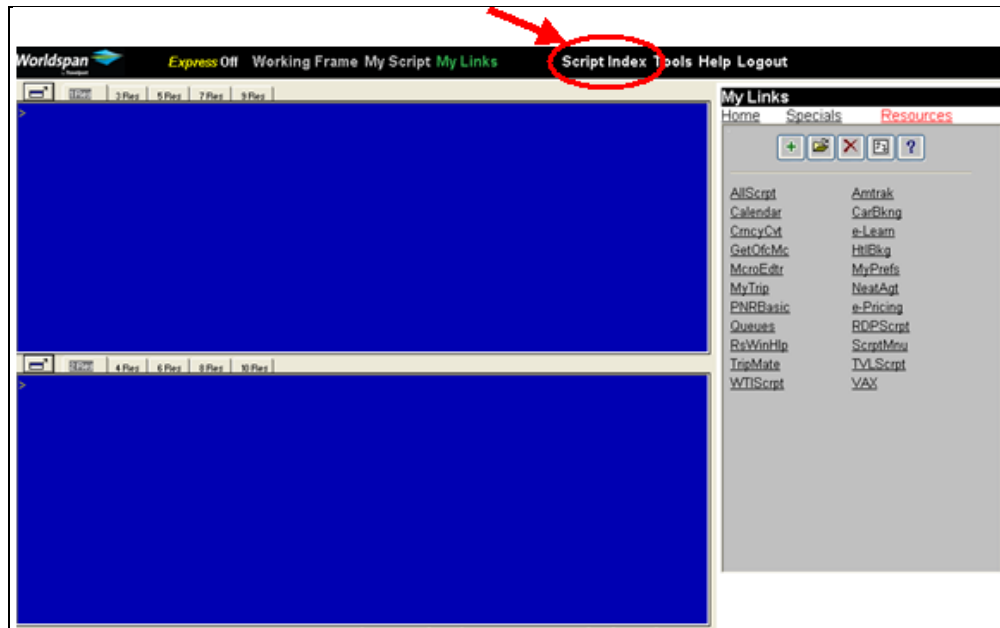

Important Note: If you have previously saved VacationSelect under My Links, you should delete that link, as the current URL will no longer access the product.

1. Log into Go!

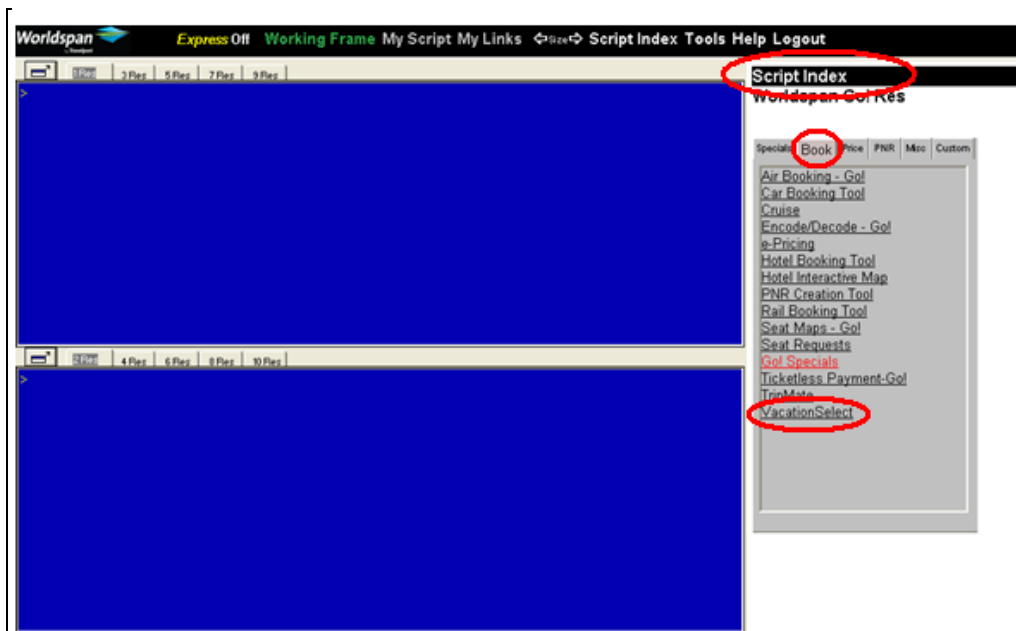

The screenshot shows the Go! login interface. At the top left is the Worldspan logo. On the left side, there is a large, stylized green 'go!' logo. In the center, there is a link for 'Windows 7 support'. Below that, there are two input fields for 'LOGIN ID' and 'PASSWORD', followed by a 'Go!' button. To the right of the button, there is a date 'Updated Oct. 21, 2009' and three links: 'Go! News Bulletin Board', 'Go! Self Serve', and 'Go! Tool Kit'. Below these links is a 'Lost Password' link. At the bottom, there is version information: 'Version 4.9', '4.9.0.38(26)', and 'Copyright 1998-2009 Worldspan, L.P. All Rights Reserved.'

2. Click on Script Index

3. Select the "Book" tab, then select Vacation Select

4. The New Vacation Select Login page will appear.

5. Login using your same User Name and password ***

*** You may be asked to change your password. VacationSelect will now follow Payment Card Industry (PCI) security standards for all passwords.

The standards include the following:

- Users will be prompted every 180 days to change their passwords
- Passwords must be a minimum of 8 characters and include at least 1 number and 1 letter
- Passwords are case sensitive
- Passwords cannot be reused within the last 4 password change cycles
- Logon and password not used for 180 days will be locked. Agent must contact their site manager to unlock.
- If an agent attempts to logon unsuccessfully more than 6 times, logon and password will be locked.
