

Giving You Unprecedented Power to Shop Low Fares Travelport e-Pricing™

How do you gain access to the lowest available airfares?

Are you trying your best to find ways to reclaim your role as the definitive source for the lowest available airfares? The demand amongst travellers is higher than ever for the lowest priced and best itinerary options – and the sources and channels where they can find them continue to grow. How can you attract and keep customers by offering the best options at the best price? How do you access the inventories of every airline? Most important, how much time do you spend searching multiple sources?

In today's technology-driven travel market, isn't there a fast, easy and all-inclusive way for travel agencies to access and sell low fares?

Have the final say with the unrivalled power of Travelport e-Pricing

You can become the ultimate fare source for leisure and business travellers with Travelport e-Pricing – the leading tool for shopping low fares worldwide. Using e-Pricing, you can shop across published, negotiated, Web and advertised fares in seconds with just one simple entry – right from your desktop, and without the need to log into different systems or Web sites. Can you compete without it?

BECOME A LEADING PROVIDER OF LOW FARES WORLDWIDE

- > **Compete head-on with the industry's largest retailers** for low-fare shopping and pricing – regardless of your travel agency's size or business orientation
- > **Shop, price and book low fares with unprecedented speed and accuracy** – with worldwide searches completed in seconds through just one powerful request
- > **Eliminate the need to tap multiple sources** to find optimal choices for your travellers
- > **Gain immediate access to comprehensive domestic or international fares**, including published, private, Web and advertised fares
- > **Receive a combined display of ready-to-book itineraries**, right on your desktop – including from 25 up to 350 of the best available options
- > **Watch customer satisfaction and loyalty grow, and your sales, too**, by offering the widest selection of flights and low-fare options
- > **Ensure accuracy on all ticketed low fares** with automatically validated rules on worldwide itinerary pricing and ticketing, and accurate taxes – all through your GDS
- > **Experience enhanced operations and cost efficiencies** using versatile tools that easily meet market demand – with the scalability to support your future growth

Shop every possible angle in seconds with one simple entry

e-Pricing empowers you by expediting many unique types of searches. You can:

- Shop for low fares prior to booking an itinerary
- Shop the lowest available fares worldwide for an existing itinerary
- Shop for flight options that are available at a specified price, including advertised low fares
- Use flexible shopping options to find low fares based on flexible travel dates, destinations or airport locations
- Apply a broad range of qualifiers to your searches, including non-stop or direct flights, specific carriers, designated connect points, no advance purchase and more

“We are able to search for a wider selection of low-fare options and flight combinations in seconds, allowing us to maintain a high level of competitiveness in the market.”

– *Antonella Marchesi, Site Manager
Easy Market S.pA, part of TUI Travel Italy*

AGENCIES USING E-PRICING HAVE A CONFIRMED COMPETITIVE ADVANTAGE

The newest international benchmarking study conducted by Topaz International, the world leader in airfare auditing, shows that Travelport e-Pricing finds the lowest available airfares worldwide. e-Pricing not only finds lowest fares more often than other products, nearly 60 percent of the time overall, but also generates an average saving of \$68.13 per ticket – substantial savings for consumers, corporations and the travel agencies that support them. The Topaz study tested the top 500 domestic and international city pairs across Asia Pacific, EMEA, North America and Latin America.

Agency

Operate with the global standard in low-fare shopping technology
