Travelport CEO and President, Jeff Clarke, stated: “The weak travel environment continues to be difficult for the entire travel industry. Travelport’s results reflect the impact of the continued global recessionary environment. GDS segments declined (16)% and GTA TTV declined (30)% year over year for the first quarter. While Travelport’s cost reduction initiatives have positioned the company to better withstand this downturn, we continue to expect 2009 to be a challenging year as our incremental year-over-year cost savings will not be sufficient to offset the weak demand for travel services. We continue to leverage our low cost base to fund investments and position the company to take advantage of the rebound in travel when it occurs. I am particularly pleased that the GDS business held margins throughout this difficult period.”

Mike Rescoe, Travelport CFO, stated: “During the quarter, we realized \$36 million of Worldspan synergies, an incremental \$26 million as compared to the first quarter of 2008. We have now taken actions to achieve savings at or better than our target of \$150 million in annual run rate cost savings and will exceed this target through additional actions in the coming quarters. In addition, in response to the current economic climate, the company has taken, and will continue to take, actions to further reduce and keep its cost base low while continuing to invest for the future. For the first quarter 2009, Travelport used \$(9) million in cash from operations, an overall improvement of \$42 million from the same period in 2008. The first quarter has traditionally been the seasonally weakest quarter for cash generation and Travelport ended the period with \$268 million in cash and cash equivalents.”

Net Revenue and EBITDA for our GDS business were \$511 million and \$152 million, respectively, for the first quarter of 2009. Adjusted Net Revenue and Adjusted EBITDA for our GDS business were \$512 million and \$161 million, respectively, for the first quarter of 2009. This resulted in a (14)% reduction in Adjusted Net Revenue and a (13)% reduction in Adjusted EBITDA compared to the first quarter of 2008. Lower revenue resulted from a (16)% decline in segments, offset by higher yield per segment compared to the first quarter of 2008. Agency inducements and commissions were \$39 million lower, or 17%, compared to the first quarter of 2008. In addition, our GDS business reduced its operating expenses, excluding agency inducements and commissions, by \$17 million, or 10%, compared to the first quarter of 2008.

Net Revenue and EBITDA for GTA were \$42 million and \$(11) million, respectively, for the first quarter of 2009. Adjusted Net Revenue and Adjusted EBITDA for GTA in the first quarter of 2009 were \$42 million and \$(10) million, respectively, representing a \$(32) million decline in Adjusted Revenue and a \$(19) million decrease in Adjusted EBITDA compared to the first quarter of 2008. Global Total Transaction Value ("TTV") declined (30)% in the quarter, driven by (19)% lower roomnights and a (13)% reduction in average daily rates. Operating expenses for GTA decreased \$9 million, or (16)%, during the first quarter of 2009 driven by currency changes and other cost saving initiatives.

Corporate and Other

Travelport incurred Adjusted Corporate and Other expenses of \$15 million for the first quarter of 2009, representing a \$(6) million decrease compared to the first quarter of 2008 due to cost reduction actions and lower incentive compensation expense. Interest Expense was \$66 million in the quarter, a \$(20) million decrease from the first quarter of 2008. This favorability is a function of our debt repurchase program and the decline in interest rates. During the first quarter of 2009, Travelport used \$(9) million in cash from operations and \$(11) million in capital investments. In addition, Travelport paid \$42 million in distributions to its parent company and ended the quarter with \$268 million in cash and cash equivalents.

Orbitz Worldwide

Travelport Limited currently owns approximately 48% of the outstanding equity of Orbitz Worldwide. Travelport accounts for its investment in Orbitz Worldwide under the equity method of accounting. During the three months ended March 31, 2009, Orbitz Worldwide experienced a significant decline in its stock price and a decline in its operating results due to continued weakness in economic and industry conditions. These factors, coupled with an increase in competitive pressures, indicated potential impairment of its goodwill and intangible assets. As a result of impairment tests performed under SFAS No. 142, Orbitz Worldwide concluded that its goodwill and intangible assets were impaired and recorded a non-cash impairment charge of \$332 million. As a result of losses incurred by Orbitz Worldwide during 2009, we have recorded a non-cash charge of \$161 million related to our investment.

Forward-Looking Statements

Certain statements in this press release constitute "forward-looking statements" that involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. Statements preceded by, followed by or that otherwise include the words "believes", "expects", "anticipates", "intends", "projects", "estimates", "plans", "may increase", "may fluctuate" and similar expressions or future or conditional verbs such as "will", "should", "would", "may" and "could" are generally forward-looking in nature and not historical facts. Any statements that refer to expectations or other characterizations of future events, circumstances or results are forward-looking statements.

Various risks that could cause future results to differ from those expressed by the forward-looking statements included in this press release include, but are not limited to: our ability to service our outstanding indebtedness and the impact such indebtedness may have on the way we operate our business; factors affecting the level of travel activity, particularly air travel volume, including security concerns, natural disasters, health concerns such as the swine flu and other diseases, the current crisis in the global credit and financial markets and other disruptions; general economic and business conditions in the markets in which we operate, including fluctuations in currencies; pricing, regulatory and other trends in the travel industry; our ability to obtain travel supplier inventory from travel suppliers, such as airlines, hotels, car rental companies, cruise lines and other travel suppliers; our ability to develop and deliver products and services that are valuable to travel agencies and travel suppliers; risks associated with doing business in multiple countries and in multiple currencies; maintenance and protection of our information technology and intellectual property; our ability to successfully integrate acquired businesses and realize anticipated benefits of past and future acquisitions, including the Worldspan acquisition; the impact on supplier capacity and inventory resulting from consolidation of the airline industry; financing plans and access to adequate capital on favorable terms; our ability to achieve expected cost savings and operational synergies from our re-engineering efforts and the Worldspan acquisition; our ability to maintain existing relationships with travel agencies and tour operators and to enter into new relationships; and our exposure to customer credit risk. Other unknown or unpredictable factors also could have material adverse effects on our performance or achievements. In light of these risks, uncertainties, assumptions and factors, the forward-looking events discussed in this press release may not occur. You are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date stated, or if no date is stated, as of the date of this press release. Except to the extent required by applicable securities laws, the Company undertakes no obligation to release any revisions to any forward-looking statements, to report events or to report the occurrence of unanticipated events unless required by law.

Adjusted Revenue, EBITDA, and Adjusted EBITDA are non-GAAP measures and may not be comparable to similarly named measures used by other companies. We believe that these measures provide management with a more complete understanding of the underlying operating results and trends and an enhanced overall understanding of the Company's financial performance and prospects for the future. Adjusted Revenue, EBITDA and Adjusted EBITDA are not intended to be measures of liquidity or cash flows from operations nor measures comparable to net income as they do not take into account certain requirements such as capital expenditures and related depreciation, principal and interest payments and tax payments. However, they are management's primary metric for measuring business performance and are used by the Board of Directors to determine incentive compensation. Capital expenditures, which impact depreciation and amortization, interest expense and income tax expense, are reviewed separately by management. Adjusted Revenue, EBITDA and Adjusted EBITDA are disclosed so that investors may have the same tools available to management when evaluating the results of Travelport. Adjusted Revenue is defined as Revenue adjusted to exclude the impact of deferred revenue written off due to purchase accounting on the acquisition of Travelport by an affiliate of The Blackstone Group. EBITDA is defined as net income (loss) before interest, income taxes, depreciation and amortization, each of which is presented on Travelport's Statement of Operations. Adjusted EBITDA is defined as EBITDA adjusted to exclude the aforementioned impact of purchase accounting, impairment of intangibles assets, expenses incurred in conjunction with Travelport's separation from Cendant, expenses incurred to acquire and integrate Travelport's portfolio of businesses, costs associated with Travelport's restructuring efforts and development of a global on-line travel platform, non-cash equity-based compensation, and other adjustments made to exclude expenses management views as outside the normal course of operations.
