Travelport and Cabforce celebrate global launch through Travelport Marketplace

10 November 2014

Cabforce success highlights Travelport Developer Network innovation

Travelport (NYSE:TVPT), a leading Travel Commerce Platform providing distribution, technology, payment and other solutions for the \$7 trillion global travel and tourism industry, and Cabforce, the Finland-based provider of taxi and airport booking solutions to the travel industry, celebrated the global launch of Cabforce through the Travelport Marketplace e-commerce platform at the 2014 PhoCusWright conference.

With first year growth in 2014 surging above 200-percent based on travel agency adoption in the United Kingdom and South Africa alone, Cabforce's plug-in already is creating greater efficiencies, new revenue streams, and increased client satisfaction for travel agencies. Cabforce expects its growth to continue once the plug-in is available worldwide following this month's commercial launch of Travelport Marketplace.

"The Cabforce plugin has become an immediate success in our office," said Scott Pawley, managing director of the Great Britain-based Global Travel Management, one of the United Kingdom's leading travel management companies. "Cabforce gives us the ability to offer more to our clients, with very little additional effort."

Travelport Marketplace is a key part of Travelport's Open Platform strategy. Travelport Developer Network (TDN) members can make use of the Travelport Software Development Kit (SDK) and Travelport Universal API (application programming interface) to build new, innovative products and then to promote their products to travel agencies through the Travelport Marketplace. For travel agencies, the Travelport Marketplace provides easy access to a wide range of products covering all aspects of agency operations, products that improve agency productivity, allow for additional services, and create new revenue streams.

"Cabforce gives travel agencies a simple, efficient, and best-of-class user experience to book taxis seamlessly integrated into the agent's normal workflow," said Andreas Hansson, chief executive officer of Cabforce. "Thanks to the opportunities provided by the Travelport Developer's Network, Cabforce is poised to build on our growth in early markets and increase our presence amongst travel agencies in European markets through Travelport Marketplace."

"Travelport is excited about the success Cabforce already has achieved as a valuable member of our Developer Network," said Pieter Van der Voort, partnership and alliance director for Travelport's European Middle East Africa (EMEA) region. "Working with Cabforce is a great example of Travelport's belief that one size does not fit all. We partner with innovative partners like Cabforce to ensure we can offer our agency customers the solutions they need to be profitable and efficient. Through TDN and the Travelport Marketplace, Travelport is redefining access to travel solutions around the world."

About Travelport

Travelport is the technology company which makes the experience of buying and managing travel continually better. It operates a travel commerce platform providing distribution, technology, payment and other solutions for the global travel and tourism industry. The company facilitates travel commerce by connecting the world's leading travel providers with online and offline travel buyers in a proprietary business-to-business (B2B) travel platform.

Travelport has a leading position in airline merchandising, hotel content and distribution, car rental, mobile commerce and B2B payment solutions. The company also provides IT services to airlines, such as shopping, ticketing, departure control and other solutions. With net revenue of over \$2.5 billion in 2018, Travelport is headquartered in Langley, U.K., has over 3,700 employees and is represented in approximately 180 countries and territories.

About Cabforce

Cabforce is a Finnish technology and services company that is the leading provider of taxi booking solutions. With all-inclusive rates and a unified service on five continents, Cabforce is the industry benchmark, powering millions of business trips each year. Cabforce connects travelers worldwide with the best possible transfer providers, and offers 24/7 quality assurance and customer support throughout the process.
