

## Travelport develops new applications tailored for travel agents in the Pacific region

18 February 2014

Travelport, a leading distribution services and e-commerce provider for the global travel industry, today announces the launch of two new applications developed especially for Travelport customers in Australia and New Zealand. The Travelport Itinerary Fare Quote App and Travelport Calendar Sync App were developed by Travelport's Sydney-based Technical Sales and Solutions Team as a result of feedback from travel agents to help them streamline and simplify aspects of the booking process.

**Travelport's Itinerary Fare Quote App** enables users to quickly produce customisable itineraries and fare quotes for bookings that exist within the Galileo GDS. Itineraries can be emailed, printed or copied to third party applications such as Microsoft Word. Where a fare quotation has been previewed, it can then be emailed, printed or sent to other file formats. Quotes can also be saved, which can then be retrieved for future booking or referencing.

The **Travelport Calendar Sync App** automatically creates Google calendar events based on host ticketing time limits, and can be conveniently integrated with Microsoft Outlook and mobile devices. It is an exceptional visual tool, particularly for management, allowing users to view which tickets need issuing and when, as well as details on the booking consultant and departure date.

Linda Kelly-Smith, Travelport's Senior Director of Commercial Development, Asia-Pacific, says, "We have a very solid team of technology experts based in Australia to develop solutions especially for travel agents in the Pacific region. The team maintains a very close and on-going dialogue with our customers to understand their needs, enabling us to develop solutions that improve their day-to-day productivity and workflow."

The Travelport Itinerary Fare Quote App and Travelport Calendar Sync App are now available to Travelport customers in Australia and New Zealand, through its customer portal.

### About Travelport

Travelport is the technology company which makes the experience of buying and managing travel continually better. It operates a travel commerce platform providing distribution, technology, payment and other solutions for the global travel and tourism industry. The company facilitates travel commerce by connecting the world's leading travel providers with online and offline travel buyers in a proprietary business-to-business (B2B) travel platform.

Travelport has a leading position in airline merchandising, hotel content and distribution, car rental, mobile commerce and B2B payment solutions. The company also provides IT services to airlines, such as shopping, ticketing, departure control and other solutions. With net revenue of over \$2.5 billion in 2018, Travelport is

headquartered in Langley, U.K., has over 3,700 employees and is represented in approximately 180 countries and territories.
