

Travelport teams up with Expedia Affiliate Network and Majid Al Futtaim Finance to launch UAE's largest online travel reward scheme

14 May 2014

The first rewards scheme of its kind to benefit UAE participants

Travelport, a travel commerce marketplace providing distribution, technology, payment and other solutions for the \$7 trillion global travel and tourism industry, has joined forces with Expedia® Affiliate Network (EAN) – the private label arm of the world's largest online travel company, the Expedia group – and Majid Al Futtaim Finance – a leading provider of credit card and prepaid solutions in the region – to launch the UAE's largest online travel rewards scheme, Najm Voyager Rewards.

The program is designed to meet the distinct travel and lifestyle needs of the UAE's affluent and well-travelled market segment. Launched in conjunction with Majid Al Futtaim Finance's new Najm reward card, this will deliver the most comprehensive programme of its kind in the UAE. It allows Najm Voyager Credit Card members to spend their loyalty points on booking flights, hotels and car rentals at exceptionally competitive prices and provides access to outstanding holiday package deals.

Najm Voyager Credit Card members will enjoy ultimate choice and flexibility with real-time redemption of travel rewards anytime, from anywhere. To access the benefits, participants log into a dedicated easy to use portal to make their bookings and redeem their loyalty points instantly. The travel services will be extended to the entire suite of Najm Credit Cardholders who will benefit from competitive pricing.

Created by Majid Al Futtaim Finance and delivered by leading creative technology agency, The Cohen International Group (TCIG), Najm Voyager Rewards was inspired by the continued growth of online travel in the UAE and across the Middle East. The intuitive website acts as a one stop portal to facilitate all member redemptions using latest technology and a simple redemption process.

As part of the agreement, Travelport will provide Majid Al Futtaim Finance with its online expertise and technology. This includes Travelport Universal API – the leading edge solution enabling travel agencies to streamline the booking process by re-aggregating fragmented content from various sources. This delivers access to more than 360 airlines, International car companies and High Speed Rail providers worldwide.

Expedia Affiliate Network, in turn, will provide the tools and the technology to access more than 190,000 properties worldwide with rich content, reviews and ratings.

Alex Morriss, Head of Business Development for Expedia Affiliate Network commented: "The Najm Voyager Rewards Program aims to be a leader amongst reward programmes and Expedia Affiliate Network is thrilled to be a part of it."
