10 December 2014

Travelport, a leading Travel Commerce Platform providing distribution, technology, payment and other solutions for the \$7 trillion global travel and tourism industry, has won a total of three awards at the prestigious Travolution Awards and Irish Travel Trade News Awards over the past week.

At the Travolution Awards, Travelport achieved Best Technological Innovation for Travelport's Travel Commerce Platform at the annual award ceremony held at The Ballroom, London Southbank, on 2 December.

Travelport was also honoured with two Irish Travel Trade News awards, for Best Technology Provider and Best Agent Supplier Team. The Best Technology Provider award recognised Travelport's Travel Commerce Platform and Travelport Smartpoint. The coveted Best Agent Supplier Team award was the only category that all suppliers were eligible to win.

The awards recognised Travelport's innovations in merchandising including Travelport Aggregated Shopping, Travelport Ancillary Services and Travelport Rich Content and Branding. These solutions allow airlines to promote their products and services to the right buyers at the right time and in the right place. Travelport continues to strengthen its product offering, having recently launched a new version of Travelport Smartpoint, its industry-leading agency desktop technology. The latest version marks the global roll-out of Travelport's industry-leading Rich Content and Branding merchandising solution for airlines alongside numerous other new features aimed at making booking travel easier and more profitable for travel agencies.

Simon Ferguson, Travelport's Managing Director, UK and Ireland, said: "Winning these three awards is testament to our commitment in providing the best service and products for our customers, delivered via our innovative Travel Commerce Platform. The Travolution and ITTN awards are two of the most highly regarded events in the travel industry calendar and we are delighted that our hard work and determination has continued to be recognised. I would like to say thank you to the team who have worked hard to achieve this."
