

eDKY.pl chooses Travelport once again

27 January 2014

eSKY.pl, a leading online travel agency in Poland, has renewed its long-term agreement with Travelport for technology and travel content. The new multi-year agreement extends a successful 10 year relationship and will result in eSKY.pl implementing some of the latest industry leading technology for their operations in Poland, Bulgaria, Romania and Brazil.

eSky.pl began operating an online booking website in Poland in 2004 and following rapid growth, expanded into new countries across Europe and South America. The eSKY brand is now present in four countries.

“We have been working with Travelport for more than ten years and have a very strong relationship,” said Piotr Stepniewski, President of the Board at eSKY.pl. “Both the quality of Travelport solutions, particularly XML Pro and e-Pricing, and the helpful and knowledgeable technical staff add a great deal of expertise to our business. In addition, Travelport’s global strength is a bonus for us as it means we can partner with them in all the countries where we operate.”

Aleksandra Tomaszewska, Country Manager Poland, Travelport, adds “As the chosen technology provider for many of Poland’s leading OTAs we are delighted to extend our relationship with eSKY.pl. Our agreements represent a shared vision for growth that both us and our customers hold and we have no doubt that our long-term relationship will continue to deliver results.”
