

## Travelport announces new management changes for the Nordics

9 February 2015

Travelport (NYSE:TVPT), a leading Travel Commerce Platform providing distribution, technology, payment and other solutions for the \$7 trillion global travel and tourism industry, today announces that Simon Ferguson, its Managing Director of the UK & Ireland, will now also lead the company's business in the Nordics.

In collaboration with Travelport's existing and highly experienced Nordics management team, Anita Wagner Feddersen, Peter Cramon and Jette Kongensgaard, Simon will lead operations in Sweden, Norway, Denmark and Finland. The new arrangement also means that Travelport's Nordic customers will benefit from the further support of the centralized functions and product experts based at the company's UK headquarters. Simon has over 20 years of experience in the travel, technology and digital media sectors and has worked for Travelport since 2011.

Mathias Andersson, who was formerly Regional Manager for Travelport Nordics, will stay within the Travelport family and has moved into an exciting and newly created role of Chief Operating Officer at Hotelzon. Hotelzon, which was founded in the Nordics, is a leading hotel distribution technology provider for the B2B travel industry and is a wholly owned subsidiary of Travelport following its acquisition last year.

Simon commented: "The Nordics is one of the most exciting European travel regions, with digitally savvy consumers, suppliers and intermediaries and an optimistic outlook for both leisure and business travel. There is huge opportunity for Travelport's Travel Commerce Platform, and I look forward to driving our business and fuelling the growth of our customers."

Damiano Sabatino, Travelport's VP and Managing Director for Western Europe added: "Simon is the ideal person to build on the great work achieved by Mathias Andersson in the Nordics and to help lead our business there to the next phase in its development. I am confident that our customers will benefit hugely from Simon's knowledge and experience as he works closely with the team to continue offering the travel industry in the Nordics the most innovative solutions and unrivalled travel content possible."

### About Travelport

Travelport is the technology company which makes the experience of buying and managing travel continually better. It operates a travel commerce platform providing distribution, technology, payment and other solutions for the global travel and tourism industry. The company facilitates travel commerce by connecting the world's leading travel providers with online and offline travel buyers in a proprietary business-to-business (B2B) travel platform.

Travelport has a leading position in airline merchandising, hotel content and distribution, car rental, mobile commerce and B2B payment solutions. The company also provides IT services to airlines, such as shopping, ticketing, departure control and other solutions. With net revenue of over \$2.5 billion in 2018, Travelport is
