

All Aboard! Travelport Seat Map makes DB RailMaster bookings quick and easy

6 September 2017

Travelport (NYSE: TVPT), a leading travel commerce platform, has today announced the addition of a dynamic seat map feature to Travelport’s dedicated rail booking tool for Deutsche Bahn, DB RailMaster. Travelport is the first and the only such provider that offers this functionality to rail agencies in Germany and beyond.

The new feature enables all Deutsche Bahn national and international agencies that work with Travelport’s DB RailMaster to easily make seat reservations using a graphical seat display, mirroring the experience of booking directly at the DB website.

When booking, agents are presented with a fully interactive seat map displaying the train layout, including the seating plan for each coach within the relevant class of service booked.

Dieter Rumpel, Travelport Managing Director Germany & Switzerland said “We are proud to be the first technology provider in the industry to enhance the user experience for DB RailMaster agency bookers through graphical seat reservations. This enhancement is another example of Travelport’s investment into making the booking experience quick and easy - powering performance and creating a frictionless path to better ways of working.”

The innovative rail booking tool is favoured by travel agencies for its user friendliness and increased productivity in 17 countries outside Germany, as far as Japan and Australia.

About Travelport

Travelport is the technology company which makes the experience of buying and managing travel continually better. It operates a travel commerce platform providing distribution, technology, payment and other solutions for the global travel and tourism industry. The company facilitates travel commerce by connecting the world's leading travel providers with online and offline travel buyers in a proprietary business-to-business (B2B) travel platform.

Travelport has a leading position in airline merchandising, hotel content and distribution, car rental, mobile commerce and B2B payment solutions. The company also provides IT services to airlines, such as shopping, ticketing, departure control and other solutions. With net revenue of over \$2.5 billion in 2018, Travelport is headquartered in Langley, U.K., has over 3,700 employees and is represented in approximately 180 countries and territories.
