

Travelport and Mobacar extend partnership to drive car rental revolution

24 July 2017

Travelport (NYSE: TVPT), a leading Travel Commerce Platform, today announced an extended partnership with car rental and ground transportation technology specialist, **Mobacar**, to deliver innovation in car distribution.

Today's travellers expect a seamless and comprehensive booking and travel experience, offering multiple services and transport options. Building on the success of the existing relationship, this long-term agreement now makes Mobacar a preferred global technology partner to Travelport. The alliance builds on Travelport's extensive Beyond Air portfolio and enhances the breadth and quality of ground transport services content provided to travel agency customers.

In partnership with Mobacar, Travelport intends to dramatically increase the global car rental and ground transportation content available to its travel agency customers, in particular regional and local car content in Latin America, Europe and Asia Pacific.

With this real-time connectivity to hundreds of car rental and ground transportation suppliers, combined with Mobacar's Artificial Intelligence leadership, Travelport can provide customers with the widest choice of relevant car transportation offers. Via its Smartpoint tool, uAPI or mobile, Travelport-connected agencies have a one-stop-shop for their global car supply and ground transportation needs. Together, Travelport and Mobacar will help car suppliers and travel agencies drive car and ground bookings, increase revenue and customer retention, and improve performance and customers' loyalty by adding a professional door-to-door driver service to the journey.

Mike Webster, CEO & Founder of Mobacar, said: “With Travelport we are pioneering new technology to easily expand the breath and quality of content available to travel retailers by expanding connectivity to car suppliers. We use our expertise in AI and machine learning to optimize the search and travel choice for Travelport’s customers.”

Niklas Andreen, Vice President and Managing Director, Global Hospitality at Travelport commented: “We are delighted to be continuing our partnership with Mobacar so we can deliver car content in a way our agency customers and travellers have told us they want to consume it. Travelport already processes more than 94 million car rental days a year, and this partnership further strengthens our leadership position in car rental distribution, especially in key growth areas outside of the US.”

About Mobacar

Mobacar are an advanced mobility technology and artificial intelligence company. Mobacar uses Artificial Intelligence to gain a deep cognitive understanding of customers, predict their specific mobility needs and fulfil this through our global ground transportation network in real time.

Each customer now gets the most relevant transportation option, at the most appropriate price delivered through a personalised booking experience. This enables our partners to retail at a customer level driving increased bookings, revenue, customer retention and overall commercial performance.

About Travelport

Travelport is the technology company which makes the experience of buying and managing travel continually better. It operates a travel commerce platform providing distribution, technology, payment and other solutions for the global travel and tourism industry. The company facilitates travel commerce by connecting the world’s leading travel providers with online and offline travel buyers in a proprietary business-to-business (B2B) travel platform.

Travelport has a leading position in airline merchandising, hotel content and distribution, car rental, mobile commerce and B2B payment solutions. The company also provides IT services to airlines, such as shopping, ticketing, departure control and other solutions. With net revenue of over \$2.5 billion in 2018, Travelport is headquartered in Langley, U.K., has over 3,700 employees and is represented in approximately 180 countries and territories.
