

# eNett Virtual Account Number using Travelport Smartpoint

An eNett Virtual Account Number (VAN) is an automatically generated MasterCard number that you can use to make supplier payments. A unique number is used for each new booking or payment transaction, which makes it a highly safe and secure way to pay, or to be paid.

## Risk

- Protection from supplier default
- Reduced foreign exchange (FX) exposure
- Authorization controls help reduce misuse and fraud

## Reward

- Access to new and dynamic content
- Low cost FX
- Efficiency gains from seamless integration
- Rebate opportunity\*

## Reconciliation

- Workflow integration ensures automated reconciliation and generates accounts payable cost savings
- Real-time data on supplier spend activity
- Full audit trail on uncustomizable reference fields

## Easy to register

-  Register for an account at [www.enett.com/travelport](http://www.enett.com/travelport)
-  eNett account approval received from eNett (usually within 5 days)  
Receive your login details and welcome pack
- Transfer funds to the Pay-In Account 
- Before using your eNett account for the first time, your Master Administrator will need to map your agents' GDS point of sales sign on credentials in the eNett Payment Platform

## How to pay using a VAN

- 1 Payment process:**  
Add a VAN as a form of payment (FOP)  
**EITHER:** Enter the command 'VAN/50' to generate a VAN for \$50 (currency can be specified with 'VAN/50USD')  
**OR:** Create a VAN from the FOP dropdown in the Customer Information screen in Travelport Smartpoint.  
  
A request is then triggered and routes the VAN command to the eNett service where more checks are carried out:
  - PCC enabled
  - Active account
  - Account has enough funds
-  Once validated and the booking is completed an active VAN is sent back to your desktop as a unique MasterCard number and is added to the FOP in the active PNR
-  The supplier processes payment and the transaction appears in your eNett VANs report

## All seamlessly integrated with Travelport systems

Travelport Apollo, Travelport Galileo, Travelport Worldspan
