

Listed on the New York Stock Exchange with revenue exceeding \$2.2bn in 2015, Travelport is the world's only true Travel Commerce Platform, focused on providing distribution, technology, payment and mobile solutions for the global travel and tourism industry. With a presence in over 170 countries, our platform facilitates travel commerce by connecting the world's leading travel providers such as airlines and hotel chains with online and offline travel buyers. Travelport enables real time access to fares from approximately 400 airlines globally, including low-cost carriers. In addition, it provides the inventory of over 650,000 unique hotel properties, over 35,000 car rental locations, cruise-line and tour operators and major rail networks.

Recently voted as the 18th best medium-sized employer by Rate My Placement, Travelport is offering talented, innovative and ambitious students the opportunity to undertake challenging and rewarding 12-13 month work placements with us as part of their degree. From day one as an intern, you will be given real responsibility, with your work directly impacting Travelport's success. As a valued member of our team, you will work alongside experienced professionals on a variety of activities to help deliver against key department initiatives and strategic projects. You will also have the opportunity to be involved in charity activities recognized company-wide which has proven to be successful with our previous Interns raising an astonishing £11,716 for their chosen charities.

2018 will mark the sixth year that Travelport has hired a Data Analytics intern into the Air Commerce team. You will see from the following quote that our programme provides you with every opportunity to apply the knowledge you have gained from university to real business situations, whilst developing a deeper understanding of how global businesses operate.

"The amount of responsibility I have been given far exceeds what I was expecting, I had no idea that I would have such an influence on the business or that the work I do would be so valuable. I have a substantial amount of real responsibilities; the work that I produce investigates problems, influences business decisions therefore producing revenue for the business." – Data Analytics Intern

What might your role involve?

- Researching and analysing raw data to identify key performance trends
- Researching and analysing individual airline performance, with a focus on elements such as number of bookings, country of sale, ticket value, route popularity and whether bookings were made through Travelport systems or those of our competitors
- Analysing and reporting on commercial agreements
- Reporting on company products using in-house systems and making recommendations based on your findings
- Identifying company trends, best practice, benefits and deficiencies, and presenting findings effectively
- Maintaining and continually improving intelligent databases
- Using raw data to build versatile Excel models, in order to produce detailed reports
- Using attention to detail in order to highlight potential anomalies in the structure of data and when reporting
